# ANIMAL HEALTH - DEWORMERS

## NAMARID SUPER

PACKS;125ML,500ML, 1L,5 LTS

### COMPOSITION

6.0% w/v Oxyclozanide BP (vet)  
3.0 w/v Levamisole Hydrochloride BP (vet)  
0.764% Cobalt Sulphate

### DESCRIPTION

Nemarid Super is a broad-spectrum double strength anthelmintic for cattle, sheep and goats. It is safe to use with young, pregnant and/or lactating animals and can be used concurrently with other treatments or vaccinations. It contains cobalt which improves appetite, digestion, growth and performance in growing animals.

### DOSAGE

Cattle; 25mls per 100 kg Sheep and Goats; 5mls per 20kg bwt

## NAMARID WITH COBALT

PACKS;135ML,500ML, 1L,5 LTS

### COMPOSITION

3.0% w/v Oxyclozanide BP (vet)  
1.5% w/v Levamisole Hydrochloride BP (vet)  
0.382% w/v Cobalt Sulphate

### DESCRIPTION

Nemarid is a broad-spectrum anthelmintic for cattle, sheep and goats. It's safe to use with young, pregnant and/or lactating animals and can be used concurrently with other treatments or vaccinations. It contains cobalt which improves appetite, digestion, growth and performance in growing animals.

### DOSAGE

Cattle; 50mls per 100kg bwt , Sheep and goat; 10mls per 100 bwt.

## MULTICURE 10%

PACKS;40ML,125ML,500ML, 1L,5 LTS

### COMPOSITION

Albendazole 10% (25mg/ml)  
selenium, Copper and Zinc

### DESCRIPTION

Multicure 10% suspension is a broad-spectrum anthelmintic, effective in control and removal of a wide range of roundworms, tapeworms and (at a higher dose level against) liver-flukes in cattle, sheep, goats and camels. The formula contains trace elements which improve immunity to parasites, appetite and hair coat color.

### DOSAGE

Cattle; 50mls per 100kg bwt , Sheep and goat; 10mls per 100 bwt.

# ANIMAL HEALTH - SUPPLIMENTS

## WHITE ENERGY

PACKS; 1KG, 25KG

### COMPOSITION

Fat...82-85%  
Calcium ...9-12%

### DESCRIPTION

White Energy is a rumen bypass fat which gives three times energy compared to concentrates .It's indicated to counter negative energy balance immediately after calving and as result leads to increased milk production ,increased milk butter fat content , improves digestibility, promotes uterine healing leading to early return to estrus

### DOSAGE

100gms per cow per day mixed together with feeds sheep and goats at 50gms per day

## KAMBOOST

PACKS; 4 BOLUS X 24 STRIPS

### COMPOSITION

Each bolus contains saccharomyces cervisiae... 25 Billion CFU  
Lactobacillusporogenes... 25 millions CFU ,Aspergillus Oryzae ... 25 millions CFU,Biotin 0mg DI- Methionine... 1gm , Zinc Sulphate... 200mg, cobalt Sulphate... 50mg  
copper sulphate 100mg,fructose Oligosaccharide ...250mg

### DESCRIPTION

Kamboost is indicated as a microflora replacer in calves, reducing post weaning stress an adjunct to antibiotics and anti diarrhoeals and to improve digestion during prolonged off feed condition

### DOSAGE

Cattle/camer/Heres... 2 boluses twice daily calves /foals...1 bolus twice daily sheep and goats- 30-60mls daily

## KETONEX

PACKS;500ML, 1L,5 LTS

### COMPOSITION

Propylene glyco...892mg,Choline chloride..75mg,  
cobalt chloride...0.75mg, Patassium iodide...45mg, sorbitol

### DESCRIPTION

Ketonex is a high concentration of propylene glycol and electrolytes designed for rapid response against serious cases of energy demand.

### DOSAGE

Cattle 240mls twice daily (ketosis) and 120 mls supportive treatment in sick animals. Dilute in water as per instructions on the label before drenching  
Sheep and gaots -30-60mls daily

## UTEROTONE

PACKS;500ML, 1L,5 LTS

### COMPOSITION

Saraca indica,Plumbago arundinacea,abroma augusta, claviceps purpurea , praganum hermal,selenium, foliac acid magnesium

### DESCRIPTION

Uterotone – is a brown coloured sweet aromatic blend of herbal bioactives fortified with minerals. It is used as an alternate approach to manage post partum complications.

It acts as an ecbolic,uterine tonic and immune-modulator.

### DOSAGE

Large animals:200ml on day one, followed by 100 ml daily for 3 -5 days

small animals:100 ml on day one ,followed by 50ml daily for 3- 5 days

Withdrawal for meat and Milk: Nil

## METAPHOS

PACKS; 100ML

### COMPOSITION

Butaphosphan.... 100mg  
cyanocobalamin (vitamin B12)BP..0.05mg  
Methylparaben (preservative) I P..0.1%W/W  
Water for injection ..I.p...os

### DESCRIPTION

Its a metabolic stimulant that provides a balanced combination of organic phosphrous and vitamin B12 in a single injection  
its indicated in prevention and treatment of phosphorous and vitamin b12  
Anoestrous, supportive therapy in milk fever and improves metabolism.

### DOSAGE

Cattle,horses and camel -10.25ml| sheep,goats and swine -2.5-10ml

Dogs and cats- 0.5-0.5mls|By I.M/S.C/I.V

## AGRIMECTIN

PACKS; 100ML

### COMPOSITION

Ivermectin B.p...10mg and Benzyl Alcohol...0.03 and propylene glycol Bp...QS

### DESCRIPTION

Indicated for the control and treatment of internal and external parasites in cattle ,sheep goats ,swine and carmels

### DOSAGE

1ml per 50kg bwt (cattle, goats and camels ) by subcutaneous route

Packs; 100ml 1ml per 33kg bwt (swine) by subcutaneous route

# ANIMAL HEALTH - DAIRY HYGINE

## MASTIGUARD

PACKS:100ML,500ML, 1L,

### COMPOSITION

Mastiguard XT-22C is an extended two part chlorine dioxide based teat dip, with Lanolin, Glycerin, and Propylene Glycol.

### DESCRIPTION

Mastiguard XT-22C is designed for protection against mastitis causing bacteria with three emollients for ideal skin conditioning.

Each product is a two-part chlorine dioxide system. Once activated, powerful germicides are produced which kill a broad spectrum of bacteria within 15-20 seconds.

### DOSAGE

Mix ratio is 1:1:18 (1 Part A, 1 Part B and 18 parts water – 100ml A + 100ml B + 1800 ml water to make 2 liters of the solution).

## ATLANTIS MILKING SALVE

PACKS:100GM,250GM

### COMPOSITION

centrimide - .055% w/v  
lanolin-2.0% w/v

### DESCRIPTION

Atlantis Milking Salve is a unique combination of a skin smoothing agent and an antiseptic to prevent skin chipping during the milking process. Routine use of Atlantis milking salve increases the natural resistance of the skin of the cow's teats to bacterial infection.

### DOSAGE

Application ;apply Atlantis milking salve to the hands ,smooth up Packs;100gm,250gm and on the teats then continue milking.

## UDDER CHECK

PACKS; 50 STRIPES

### COMPOSITION

Udder Check is a simple on-farm test to screen for udder infection in its earliest detectable stages. It measures the level of lactate dehydrogenase (LDH) in milk, an enzyme that is released when in amation of udder is present

### DESCRIPTION

UdderCheck is an ideal on-farm tool to check for the presence of udder infection in dairy cows. Squirt milk onto a test strip or dip a test strip in a milk sample. Shake off excess milk before reading the results

### UdderCheck can be used to:

- Monitor problem cows
- Check cow at freshening and dry off
- Monitor sick and treated cows

# ANIMAL HEALTH - DAIRY HYGINE

## PORTA BHB

PACKS;4TEST& 10 TEST PACKS

### COMPOSITION

The PortaBHB® milk ketone test is based on a chemical reaction between an enzyme on the test strip and a ketone called beta-hydroxybutyrate (BHB) found in the milk.

This reaction makes the test strip sample area change to a purple color. The darker the purple color, the higher the BHB level.

Squirt milk directly on the test strip, shake of excess of wait one (1) minute and read results

## PORTASCC MILK TEST

PACKS;24 STRIPS PER PACK

### DESCRIPTION

The PortaSCC® milk test is a somatic cell count test designed to quickly check herd health right on the farm. Take 4 drops of milk and add 4 drops of quick activator solution, wait for 5 - 6 minutes before reading the results. Test are based on a chemical reaction between a dye on the test strip and an enzyme found on the cells in milk. The reaction makes the test strip sample well change to a blue color. The darker the blue color, the higher the cell count.

# ANIMAL HEALTH - ACARICIDE

## PYROTIX

PACKS;10ML,20ML,40ML,100ML,500ML,1LT

### COMPOSITION

Chlorpyrifos 50.0% and Cypermethrin 5.0% w/v.

### DESCRIPTION

Pyrotix controls ticks, including organophosphorus and amidine resistance tsetse flies, nuisance flies, fleas, lice and mange mites on cattle, sheep and goats.

Applied topically by spraying.

### DOSAGE

100mls in 100Lts of water

## DIFLY

PACKS; 5 GMS, 30GMS, 500GMS

### DESCRIPTION

Difly GB is a ready to use granular bait public health insecticide for control of houseflies in homes,hotels, butcheries,abottoirs,stables,poultry houses, pigsties, and industrial buildings.

### APPLICATION

For best results, DIFLY 0.55% GB should be sprinkled into suitable containers and sprayed with a fine mist of water or cola and placed where flies are active. The bait can also be sprinkled onto a small board, lightly sprayed with water or cola and allowed to dry before hanging up where flies are active. Lightly spraying with water/cola increases the efficacy of the bait.

Application rate of 30g/m<sup>2</sup>. One sachet treats an area of approximately 1m<sup>2</sup>. In areas of high infestation, place a second container/board within 2m of the first. Repeat after 3 weeks or as necessary.

# Difly

### Suitable in ...

- ✓ Homes
- ✓ Hotels
- ✓ Butcheries
- ✓ Slaughter houses
- ✓ Stables
- ✓ Poultry houses
- ✓ Pigsties
- ✓ Industrial buildings.

**EASY APPLICATION**  
Scatter lightly where flies congregate

## The flies' last meal
